Short Sermon on Lying.

[A natural element of the soul, heaven born, is that of perfect faith and trust. This luxury of the soul presents to us the great responsibility of parents and teachers. The parent or teacher often teaches a child to lie by speaking and acting lies. One of the most effective ways to manufacture a nation of liars and defaulters is by the object lesson system. A mother tastes some nauseous medicine, assuring the child by words and actions that it is very nice. The child takes the medicine, detects the lie the mother has told it, learns by such lessons to deceive and consequently never climbs to the mountain top of honor and write his name by the side of George Washington. No child could have the implicit confidence it would have had had the mother been true and said, "This medicine is bad to take. You are sick and it is necessary that you take it to get well." Such a course would inspire confidence and trust; truth would not be sacrificed, but a lesson of obedience and courage manifested in the presence of one of the little ones of whom the Great Teacher said, "Suffer little children to come unto me and forbid them not for such is the kingdom of heaven." Another instance—this used to belong to the schoolroom, possibly the practice has gone out of date ere this—we allude to the practice of self reporting. A young lady of truthful character, obnoxious lying, with a truthful mother who instilled this virtue in her daughter, was made to bow to untruth by this evil practice in the schoolroom. At first when her classmates, who had been whispering all day, answered "perfect," she felt a loathing and disgust, and always said she had whispered. The others who lied about it were praised continually, while she was publicly reprimanded before the school. Thus the teacher was giving a reward for dishonesty, and while unconscious of the fact, was aiding Satan to discourage virtue and during the character forming period of life, established an imperfect custom in one that might breed ruin and decay. Let us remember children are keen observers, but they are naturally sociable and friendly, and any departure from truth will wound the sensitive and trusting nature of a child. As we grow older, we realize no poet's pen or painter's brush can depict the glory of childhood, for such a day one would almost treat backwards through the checkered years and encounter the trials and disappointments, and pain and perplexities of life, and view was in the olden time on either side their withered hopes.]

Parents, live in such a manner that when you give to your children the good-bye kiss, they will honor you and revere your loving counsel. Teachers, so conduct your schools that your pupils may never learn to manifest brazen audacity and exhibit wares not their own and unlawfully obtained. Immortal souls are in your keeping. Their happiness for time and eternity largely depends upon you. Do not be instrumental in introducing false methods and wrong ideas of advancement, but train up the children in the morning of life in the "nurture and admonition of life in God," remembering that "as the twig is bent the tree is inclined."

Jeffersonian Barbecue.

The Democracy of Louisville extends an invitation to every Democrat in Kentucky, to attend the Jeffersonian Barbecue to be held in the Falls City August 31 and September 1, and promises every man who attends that he will see something and hear something that will do him good. The Democrats of the state are preparing for the great battles of the future, and this barbecue is to be held for the purpose of bringing the Democrats of Kentucky together in a sort of consultation, preparatory to the onslaught which is to be made on the Republican party, because of its incompetency and misrule in matters of state and nation, as well as the municipal affairs of Louisville.

Farming Taught in Public Schools

The teaching of Agriculture in common schools has been making rapid progress throughout the United States, and we now find it in the curriculum of every progressive school system. The city schools have led the movement in the form of school gardens, but the rural districts have grasped the opportunity and accomplished much.

The teaching of Agriculture was first looked upon as an experiment, and although successful, it took nine years for the movement to spread beyond the suburbs of one city. Texas was slow in taking hold, but after realizing that agriculture is the greatest of all callings we now find the subject required to be taught in her common schools by law. The Texas Legislature passed a bill of much value to the progress of this movement. This bill provides for an appropriation of \$32,000 for 1910 and \$32,000 for 1911 to establish equip and maintain departments in high schools for giving instruction in agriculture with its subsidiary subjects. The board of trustees seeking this aid shall provide a tract of land adapted to the production of farm and garden crops and employ a teacher who has received special training in agriculture and allied branches. The State Superintendent of Instruction shall make accurate and full investigation and report the result to the State Board of Education. Thus the youth is taught that in point of nobility independence cleanliness of living, happiness moral and physical healthfulness purity of citizenship and contentment agriculture is second to no vocation on earth.

Mild Laxative for Baby Free

The child of today is the parent of the future, and whether it grows up healthy and strong, or puny and weak, depends upon the intelligence of its parents, for most children are born into the world healthy, but thousands become future weaklings between birth and the age of ten, when the parents are still in greatest control. The prime cause of trouble is in the stomach. A baby that is digesting its food seldom cries and always looks cheerful; the little child whose stomach is good romps and plays and never whines; the growing child learns well at school and is eager for fun if its head is clear and its stomach light, and that means if it has no constipation. The best and safest way to cure any irregularity of the stomach and bowels in children is by the use of Dr. Caldwell's Syrup Pepsin. This is a liquid laxative wonderful in its effect as Mrs. John W. Dunham, Apple Creek, O., Mrs. H. L. Cullam, Plainville, Ind., and numerous others can testify who give it to their children with extraordinary results. A bottle only costs 50 cents or \$1 according to the size you want, and even one 50-cent bottle will do a wonderful amount of good in a family. It can be given to any member of the family in constipation, sour stomach, indigestion, torpid liver, dyspepsia, heartburn, sick headache and similar digestive troubles. It never gripes or strangles like pills, tablets, salts and powders, which should not be given to children, women or old folks. If you have a child or other member of the family who needs, but has never used this grand laxative tonic, send your name and address to the doctor and a free trial bottle will be sent to your home. In this way you can find out what it will do without personal expense.

If there is anything about your ailment that you don't understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 509 Caldwell bldg., Louisville, Ill.
